CENTER ON INSTRUCTION

DOINGWHATWORKS
research-based practices online

Overview of COI and DWW

- A national content center that provides materials and technical assistance
- Supports instruction in literacy, mathematics, science, special education, and with English language learners
- Builds on expert research reviews to identify effective practices
- Uses a **LEARN**→**SEE**→**DO** model to translate research-based practices into practical tools to improve instruction

Support school improvement initiatives...
...with practical implementation resources

Slide 5

LEARN: Research Findings

Teaching students to use comprehension strategies can help them better understand the text they read.

What does this mean for instruction?

- Teach students how to use several research-based reading comprehension strategies.
- Teach reading comprehension strategies individually or in combination.
- Teach reading comprehension strategies by using a gradual release of responsibility.

Slide 7

Ask yourself...

❑

What are comprehension strategies and why should we teach students to use them?

❑

What are some of the comprehension strategies that research has shown to help students improve their reading comprehension in the early years of school?

❑

How might you use this video for planning?

Slide 8

Slide 9

Take a few minutes to...

Reflect and share ideas:

•

How might you use this video for planning instruction?

•

How might you use this video for staff development?

Slide 16

How does the teacher use thinkalouds to promote comprehension?

Slide 17

Use a tool to plan

Teaching Comprehension Strategies

Using DWW Resources to Support Instruction for School Improvement

Module Description

Hello everyone! Thank you for joining the Center on Instruction's webinar on Teaching Comprehension Strategies - Using Doing What Works (DWW) Resources to Support Instruction for School Improvement.

This is the second module in a series of Improving K-3 Reading Comprehension webinars designed to provide key principles and practices that support classroom instruction. Each module provides resources useful to federally funded School Improvement Grant (SIG) programs as well as technical assistance providers and others interested in school improvement.

The webinars introduce the Center on Instruction (COI) and the Doing What Works (DWW) webinars and demonstrate how COI and DWW Reading Comprehension resources can be used to support the implementation of effective reading practices in schools. These and other multimedia resources for improving instruction across a variety of topics can be found on the COI and DWW websites.

My name is Sheryl Turner and I am a reading content specialist with the Center on Instruction. I will be presenting this webinar on Teaching Comprehension Strategies.

Teaching Comprehension Strategies

Using DWW Resources to Support Instruction for School Improvement

Overview of COI and DWW

Learn about the Center on Instruction (COI) and the Doing What Works (DWW) webinars. These resources can be used to support the implementation of effective reading practices in schools. These and other multimedia resources for improving instruction across a variety of topics can be found on the COI and DWW websites.
